

84% of Indian students are unprepared for AI leading the job market.

Institutions that solve this will define the future of the next generation.

This is the gap ONROL is built to fill

HOW TO ONROL?

- 1 Schedule the consultation.
- 2 Invite us on your campus to organize a workshop.
- 3 Start Your Growth Journey with us

ABOUT ONROL

99% get stuck in AI hype without turning their ideas into income or impact.

Onrol isn't just another player in the AI frenzy—we're building one of the largest communities of AI experts and enthusiasts dedicated to monetizing AI and solving real market problems.

Onrol is your opportunity to be a part of a growing community where your talents create real value in the world.

OUR MISSION:

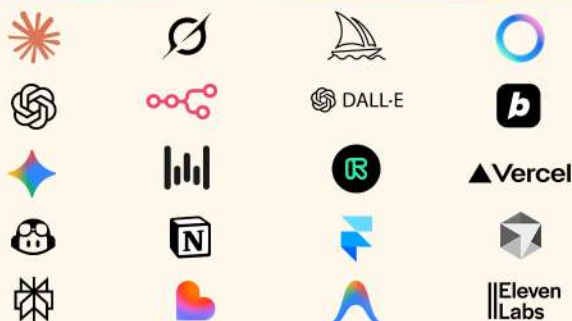

TALENT TO INCOME ENGINE

We bridge your passion for AI into a profitable career through three clear paths:

- **Freelancing** – Learn to deliver high-impact AI services
- **Agency** – Build or join AI-powered agencies
- **AI Startups** – Launch ventures solving real-world problems
- **Placement Assistance** – Get placed in top companies around the world.

You are not alone; Onrol provides you tools, resources, networks, and accountability.

GET TOOLS MASTERY

OUR RESOURCE PERSONS ARE FROM

5-DAY

AI GENERALIST PROGRAM

Transform yourself from a learner to a creator.

You can go from having ZERO knowledge to deploying real AI applications in just 5 days.

Your Stack: 7-Step Prompting, RAG Fundamentals, n8n Automation, and Vibe Coding.

Your Output: 3 live projects built and deployed.

1. Functional n8n automation system
2. Live Website (Vibe-Coded)
3. Tuned Personal AI Assistant

The Outcome: Validated foundational skills and your official entry ticket into advanced mastery.

9-WEEK

AI ORCHESTRATOR PROGRAM

Our Mission: Guide you to orchestrate AI for 10x productivity and monetization.

The Stack: Local/Offline AI, Production-Grade RAG, Multi-Agent Systems, API Orchestration, and AI Media Production.

1. 8 Major Projects (Live, client-ready work)
2. 8 Verifiable Certificates (Levels 1 through 8)
3. 1 Income Plan (Service menu, pricing, and proposals ready for launch)

The Outcome: A pipeline directly into premium industry roles like AI Automation Engineer (₹22-55 LPA) and Forward Deployed Engineer (₹45 LPA+).

3 PROJECTS YOU WILL BUILD

- | | | |
|--|---|---|
| Project 1:
Automation System | A fully working AI automation (Form → AI → Email) built on n8n |  |
| Project 2:
Live Website | A deployed personal/portfolio website built with Vibe Coding. |  |
| Project 3:
Personal AI Assistant | A RAG-powered AI assistant tuned with your personal knowledge base. |  |
